DETAILED ACTION

- This action is responsive to the following communication: Appeal Brief filed on 7/23/07.
- Claims 38-39 and 49-63 are now allowed.
- IDS filed on 4/5/07 have been considered and herein attached (PTO 1449) with office action.

Response to Arguments

Applicant's arguments, see pages 4-7, filed 7/23/07, with respect to claims 38 and 63 have been fully considered and are persuasive. The prior arts rejection of independent claims 38 & 63 has been withdrawn.

Allowable Subject Matter

- Claims 38-39 and 49-63 are allowable over prior arts of record; renumbered as claims 1-17.
- The following is an examiner's statement of reasons for allowance: The cited prior arts (US 5983200 to Slotznick; US 6671063 to Iida; US 5614694) fail to teach and/or suggest "a printing interface apparatus (e.g. kiosk printing device) having a radio frequency directional shield having an antenna opening configured to allow wireless communication between the wireless devices and wireless devices located only substantially in front of the antenna opening and in combinations of other features" as cited in independent claims 38 and 63 (renumbered as claims 1 & 17 respectively). The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teach the above limitations and in combinations of other features cited in claims 38 and 63 (renumbered as claims 1 & 17 respectively).
